From the Prez's Desk

WRCC's Future, Con't

by Len Cymbal, President, WRCC

Well the long range weather is promising, anyone with pull with the weather gods please put in for sunny, +20°C or better and a light breeze for June 15th.

Nobody has stepped forward to take over the newsletter editing duties, so this may very well be the last one. Funny, when I accepted the nomination the book of duties and responsibilities must have been misplaced!?

As you have heard and will see on the attached page the field is ready for the City's sewage plant expansion aside from moving the storage container. The cost so far for accommodating the plant expansion is in the neighborhood of \$525 in the past week, with another \$100 to move the storage container. We are waiting on the City / contractor to place surveyor's pegs before we move it so we don't incur an additional \$100 expense moving it a second time.

We will be offering a limited number of tickets for the pig roast at the event, but cost for all tickets paid for at that time will be \$13. The cooker and pig have been confirmed with Danny's and George Burfoot will be picking these up on Saturday morning at 10:30 am..... YUMMY!

We are commissioning a wall plaque for the President's Day WRCC over-all winner but it will not be ready in time to display at the event. We will however have it engraved with last year's winner Mr. Len Gladstone and this year's winner ??? ??????.

As mentioned in an email to those members with access, when we get approval to rebuild the sunshade we could use a lot of help and if you have connections or access to the following, please contact one of the Club executive as soon as you can:

- Asphalt Shingles,
- A post hole driller that can go down 48" and has a diameter of at least 12".

We'll keep you posted (no pun intended) on when the sunshade rebuild will occur, see you on June 15th!!!
